

DHRUTI SOLANKI

Senior iOS Developer | SwiftUI Engineer | Mobile Product Engineer | 7+ Years Experience | 14+ Apps Built & Published

Phone: +91 91044 95050 | Email: dhrutisolanki90@gmail.com
LinkedIn: www.linkedin.com/in/dhruti-solanki-724b41158

PROFESSIONAL SUMMARY

Results-driven Senior iOS Developer with 7+ years of experience designing, architecting, and delivering scalable iOS applications across Sports, Healthcare, Education, Marketplace, Transportation, and Service domains. Successfully published 14+ App Store applications and led end-to-end product delivery, including product architecture, development, testing, deployment, monitoring, and production support.

Expert in Swift, SwiftUI, UIKit, MVVM, REST APIs, Firebase, WebSockets, and scalable mobile architectures, with a strong focus on performance optimization, application security, and exceptional user experience. Proven track record of building production-grade mobile products that support thousands of users while maintaining high reliability and maintainability.

Collaborative by nature — working closely with product, design, backend, and QA teams in Agile environments to ship reliable, user-loved mobile products on schedule.

KEY ACHIEVEMENTS

- 7+ Years of Professional iOS Development Experience
- 14+ Applications Successfully Published on the App Store
- Led End-to-End Product Development and Delivery for Multiple Mobile Applications
- Sole iOS Engineer and Product Owner for PlayRight India
- Owned Architecture, Development, Testing, Deployment, and Production Support
- Delivered Scalable Mobile Solutions Across Multiple Industry Domains
- Drove Technical Decision-Making and Mobile Architecture Implementation
- Mentored Junior Engineers Through Code Reviews and Technical Guidance
- Managed App Store Releases, TestFlight Distribution, and Production Monitoring
- Strong Expertise in Swift, SwiftUI, UIKit, Firebase, REST APIs, and Real-Time Communication Systems

CORE COMPETENCIES

iOS Development | Swift | SwiftUI | UIKit | Objective-C | Mobile Architecture | Clean Architecture | Modular Architecture | MVVM | MVC | Coordinator Pattern | Repository Pattern | SOLID Principles | Design Patterns | Swift Concurrency | Async/Await | REST APIs | WebSocket | Firebase | Core Data | Dependency Injection | Unit Testing | CI/CD | App Performance Optimization | Memory Management | App Store Deployment | Technical Leadership | Product Engineering | Agile Development | Code Review | Production Support | Third-Party Integrations | Application Security | XCTest | UI Testing | Swift Package Manager (SPM) | Git | App Lifecycle | Push Notifications

TECHNICAL SKILLS

Programming Languages: Swift, Objective-C

UI Frameworks: SwiftUI, UIKit

Architecture: MVVM, MVC, Clean Architecture, Modular Architecture, Coordinator Pattern, Repository Pattern

Concurrency: GCD, Async/Await, Swift Concurrency

Networking: REST APIs, Alamofire, URLSession, WebSocket, JSON Parsing

Backend & Database: Firebase, Core Data

Testing: XCTest, Unit Testing, UI Testing

Tools: Xcode, Git, GitHub, CocoaPods, Swift Package Manager, App Store Connect, TestFlight, Jira, Figma

Analytics & Monitoring: Firebase Analytics, Crashlytics, Loggly

Third-Party Services: Firebase Cloud Messaging (FCM), OneSignal, Google Maps

Development Practices: Agile Development, CI/CD, Code Reviews, Performance Optimization, App Security

Software Engineering Principles: SOLID Principles, Design Patterns, Dependency Injection, Code Reusability, Scalability, Maintainability

PROFESSIONAL EXPERIENCE

INDIA ON TRACK

Lead iOS Application Developer | September 2024 - Present

- Owned end-to-end delivery of PlayRight India, leading product architecture, development, testing, deployment, release management, and production support.
- Architected and developed scalable, maintainable mobile applications using Swift, SwiftUI, UIKit, MVVM, and Clean Architecture principles.
- Integrated Firebase Authentication, Analytics, Crashlytics, Cloud Messaging, and real-time synchronization services.
- Implemented WebSocket-based communication for real-time athlete and coach interactions.
- Optimized networking and application performance through efficient API design and caching strategies.
- Collaborated with business stakeholders to define product roadmap, feature prioritization, and technical solutions.
- Managed App Store releases, TestFlight distributions, production monitoring, and issue resolution.
- Mentored developers through code reviews, technical guidance, and engineering best practices.
- Improved application stability, responsiveness, and maintainability through continuous optimization initiatives.

WEBOCONNECT TECHNOLOGIES PVT. LTD.

Senior iOS Application Developer | January 2021 - August 2024

- Delivered multiple enterprise-grade iOS applications for international and domestic clients.
- Developed scalable mobile applications using Swift, SwiftUI, UIKit, MVC, and MVVM architectures.
- Integrated REST APIs, payment gateways, location services, analytics platforms, and third-party SDKs.
- Implemented Firebase Analytics, Crashlytics, Push Notifications, and real-time communication solutions.
- Conducted code reviews and established development standards to improve code quality and maintainability.
- Collaborated with Product, Design, Backend, and QA teams throughout the complete software development lifecycle.
- Mentored junior developers and provided technical leadership across multiple projects.
- Managed App Store submissions, release planning, deployment activities, and production support.

RUDRA BIZTECH SOLUTIONS

iOS Application Developer | May 2019 – January 2021

- Developed and maintained iOS applications using Objective-C.
- Designed and implemented new application features based on business requirements.
- Wrote clean, maintainable, and reusable code following development best practices.
- Participated in code reviews and collaborated closely with development teams.
- Debugged and resolved application issues reported by QA teams and end users.
- Maintained application stability, performance, and code quality.
- Worked on attendance management and educational applications for enterprise clients.

FEATURED APPLICATIONS

Playright India

App Store: <https://apps.apple.com/in/app/playright-india/id6741409930>

- Designed, developed, and launched the complete PlayRight India application as the sole iOS engineer, owning the product lifecycle from concept to production.
- Owned architecture design, requirement analysis, development, testing, deployment, and post-release support.
- Developed athlete management, coach management, scheduling, and real-time communication modules.
- Integrated Firebase, REST APIs, WebSocket communication, analytics, notifications, and monitoring solutions.
- Successfully delivered production-ready releases and maintained application quality through continuous improvements.

Doctor Locums

App Store: <https://apps.apple.com/in/app/doctor-locums/id6443468424>

- Developed a healthcare marketplace connecting physicians with healthcare facilities.
- Built scalable assignment management, search functionality, and staffing workflows.
- Developed user-friendly healthcare staffing solutions with efficient resource management.

Nurseify

App Store: <https://apps.apple.com/in/app/nurseify/id1605766107>

- Developed a healthcare staffing platform for nurses and healthcare organizations.
- Implemented profile management, staffing workflows, and intelligent matching systems.
- Created streamlined recruitment and workforce management experiences.

KEY PROJECTS

MonkyShine

- Developed a complete booking platform for car wash services.
- Integrated secure payment solutions and OneSignal notifications and implemented multilingual support and location-based booking validation.

Vaffix

- Developed a webinar hosting platform supporting live and automated webinars.
- Built event management and marketing automation functionalities.

WalletCab

- Developed a wallet-based ride-hailing application.
- Implemented real-time ride tracking, booking, and ride management workflows.

Loppekortet

- Developed a Denmark-based marketplace discovery application.
- Integrated geolocation services for nearby event and market discovery.

ThinkndoNOW

- Developed donation and bidding functionalities supporting nonprofit initiatives.
- Enhanced user engagement through fundraising and contribution workflows.

QuizBook

- Developed an educational examination platform using Objective-C.
- Implemented MCQ-based examinations with automated result generation.
- Built exam creation, evaluation, and performance tracking modules.

IS.Attendance

- Developed an employee attendance and leave management system using Objective-C.
- Implemented attendance tracking, leave application, approval workflows, and reporting modules.

EDUCATION

Bachelor of Computer Applications (BCA)

Shree Swaminarayan College of Computer Science (SSCCS) | March 2016 - March 2019
